Desk Mount

User Guide

FC Technologies @2023

Introduction

The Desk Mount (Figure 1) serves as the foundational component essential for commencing the creation of your customized Cockpit setup. With this versatile Desk Mount, you gain the capability to seamlessly incorporate a diverse range of controllers, allowing you to tailor your cockpit to perfectly match your specific flight preferences.

Whether you're inclined towards a setup featuring throttle and side-stick controls, a centrally positioned flight stick with extensions, or a dual-stick arrangement ideal for space simulation games, the Desk Mount empowers you to achieve the ideal cockpit configuration for your needs.

In this user guide, we'll delve deeper into each feature, providing step-by-step instructions to optimize your Desk Mount. Elevate your virtual aviation adventures with our exceptional aviation-grade accessory.

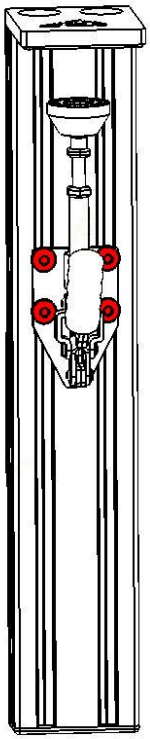
Desk Mount – Technical Overview

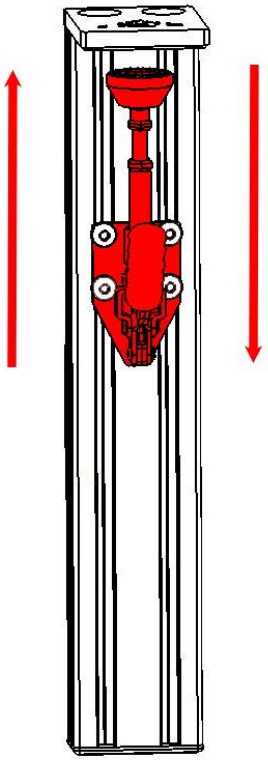
The FC Technologies Desk Mount boasts high reliability, ensuring lasting performance that stands the test of time. It offers compatibility with all commonly used bases, providing versatility for various setups. With the convenience of on-the-fly damper settings adjustment and a wide tilt adjustment range from 45 degrees to each side, you have precise control over your setup. Rapid installation and adjustment features require no tools, making it a hassle-free experience.

Desk Mount – Adhering to the table thickness

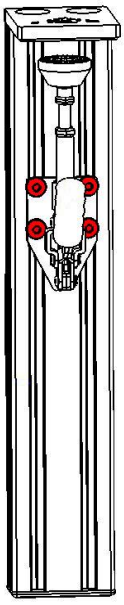
1. To adjust the Desk Mount clamp, loosen the indicated screws.



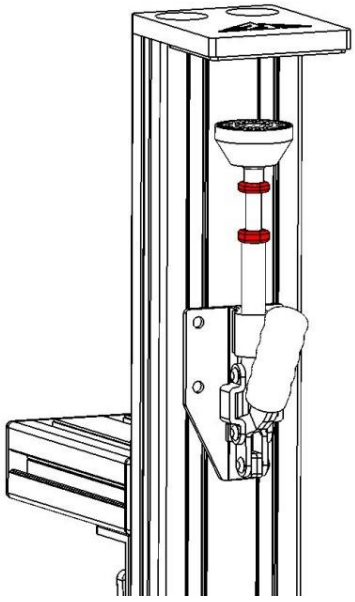
2. Lower or raise the clamping mechanism.



3. Tighten the screws after adjusting the clamp height.

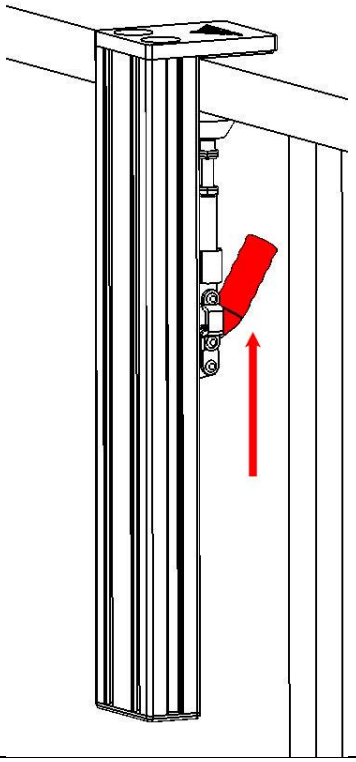


4. You can fine-tune the clamping mechanism with the dedicated nuts.

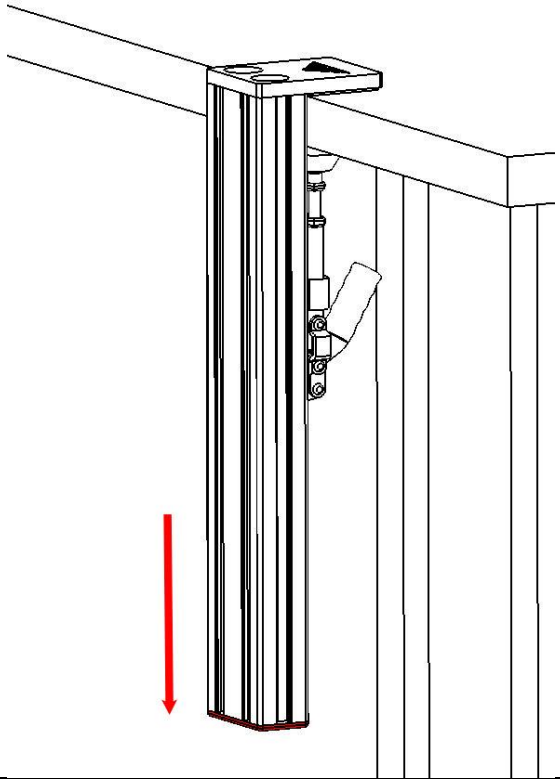


Desk Mount – Base Holder Assembly

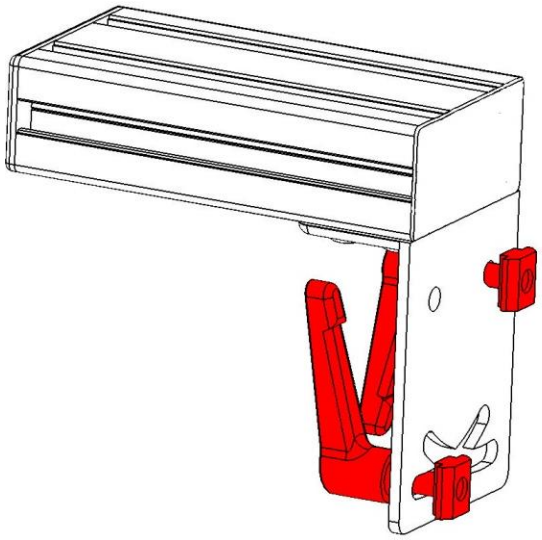
1. Secure the first part of the DeskMount to the table with the clamp.



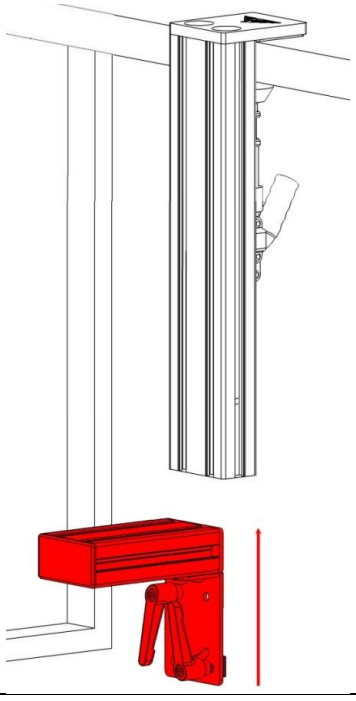
2. Remove the blank cover from the first part of the Desk Mount.



3. Install the Fixing handle with T-Nuts on the second part of the Desk Mount.

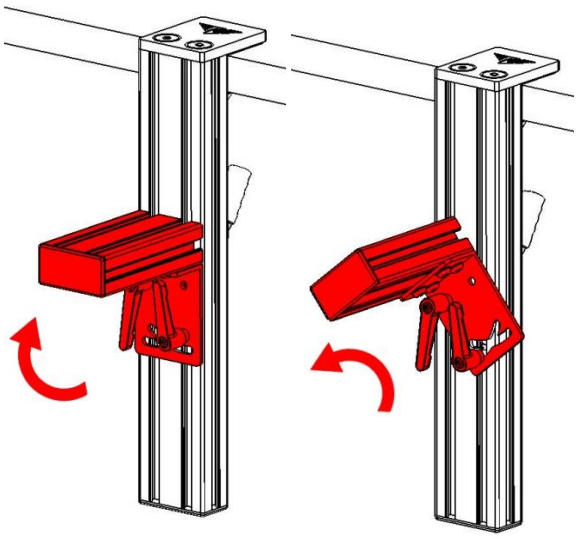


4. Position the second part of the Desk Mount on the first part to your desired height.

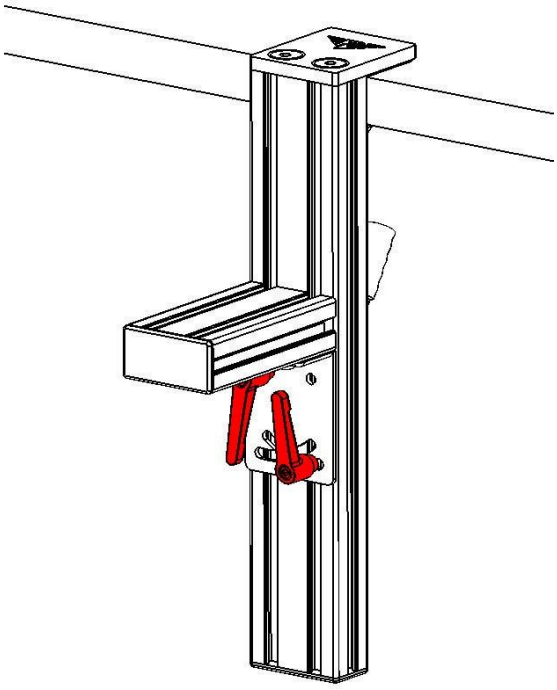


Desk Mount – Adjusting the Angle

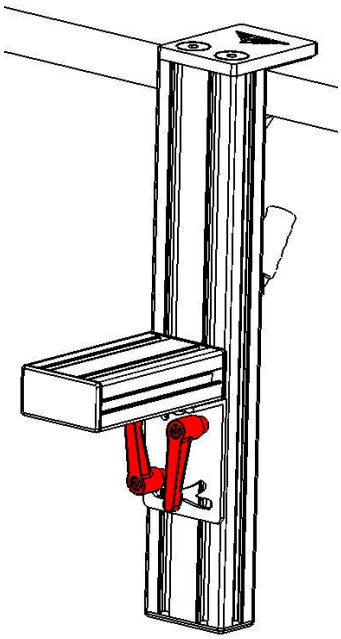
1. You can adjust the slope of the second part of the Desk Mount as you like.



2. Tighten the fixing handles on the second part of the Desk Mount.



3. To tilt the second part of the Desk Mount clockwise, move the fixing handles.



4. Place the blank cover on the first part of the Desk Mount.
